

# GRANIT CLIMBING STAGE

## VAL DI MELLO or VALLE DELL'ORCO

Climbing granite is completely different than climbing limestone. The first time will feel as though you are a complete beginner but climbing this vertical wall is tremendously satisfying!

Spending three days among Valle dell'Orco's sinuous cracks or Val di Mello's slabby walls, we are going to improve our skills on this terrain. Starting with one pitch route to practice the climbing technique, we will then pass onto multipitch traditional routes.

### PROGRAM:

**Day 1°:** meeting in the morning and transfer to the climbing crag in the valley: climbing technique, rope manoeuvres, climbing methods on granite and use of traditional gear;

**Day 2°:** belay stations, abseiling, different kind of anchors;

**Day 3°:** multipitch route with use of traditional gear for protection;

*Program could be changed cause organization problem or meteorological conditions.*
